**Dimensions:**  
 W 8.70in (221.00 mm)  
 H 7.64 in (194 mm)  
 D 2.48in (63.00 mm)

When maximum light with the widest beam pattern is required, rely on the A522 Series Scene Light Bottom Mount. This light is perfect for night time area lighting applications including mining, marine, construction, port, emergency vehicle and perimeter lighting. Vibration that contributes to bulb failures is not an issue with these LEDs. Poor quality heat management and optics are LED service life and efficiency killers. JW Speaker pride themselves on designing, testing and producing USA manufactured LED fixtures that guarantee you reliable service and maximum efficiency in getting the light where you need it, on the ground.
