

PreView® Has Your Blind Spot Covered

VEHICLE TYPE: MINING DOZER

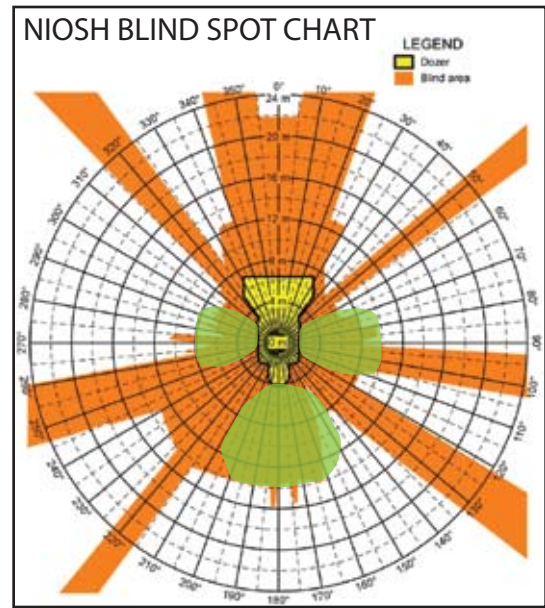

proudly developed by

- ▶ Reduce Blind Spot Accidents
- ▶ Actively Detect Objects

The in-cab display provides the driver with an audible and visual alert when an object is in the detection zone. As the object moves closer to the sensor, the audible alert increases and more LEDs light up on the display.

Three Xtreme PreView® sensors are mounted. One each on the rear, the right side and the left side. This covers the most dangerous blind spots.

PreView Coverage Area

Available Options: Replace in-cab LED display with PreView Plus camera and monitor system. Superimposes object detection indicators directly on to monitor and will support up to 4 cameras.
