

# APS Safety Whips and Flags

## Increased Visibility Of Vehicles, Trucks and More

### Description

Safety Whips and Flags are used to increase the visibility and awareness of smaller vehicles (e.g. utility, service vehicles, etc) for those operating larger heavier vehicles (e.g. haul trucks, excavators, etc) that are typical within mining and construction environments. Smaller conventional vehicles are easy for operators of larger heavier vehicles to miss, potentially causing serious injury and vehicle damage. By using safety whips, you are increasing the visibility of smaller vehicles leading to an increase in awareness and safety. Using the correct whip should boost your occupational health and safety guidelines and requirements for smaller vehicles accessing mining and construction sites.

APS Safety Whips and Flags have been around for a long time in the recreation, construction and mining industries – in fact over 10 years. We understand that there is a world of difference in terms of durability, reliability and quality between brands. We also understand that there should not be a compromise when it comes to safety. Our safety whips are made from quality material, and have been designed to withstand environmental exposure and weather damage. We are confident that our whips are built to last.

### Features and Benefits

- Fibreglass Whips: 5ft, 8ft, 10ft
- Breakdown Fibreglass Whips: 8ft, 10ft, 12ft

Part No.	Description
SAW-10BDL	Safety Whip 10ft / 3.1m Fibreglass, Breakdown, Std mnt, wired, incl X flag
SAW-10L	Safety Whip 10ft / 3.1m Fibreglass, Std mnt, wired, incl X flag
SAW-10NL	Safety Whip 10ft / 3.1m Fibreglass, Std mnt, not wired, incl X flag
SAW-12BDL	Safety Whip 12ft / 3.6m Fibreglass, Breakdown, Std mnt, wired, incl X flag
SAW-12L	Safety Whip 12ft / 3.6m Fibreglass, Std mnt, wired, incl X flag
SAW-12NL	Safety Whip 12ft / 3.6m Fibreglass, Std mnt, not wired, incl X flag
SAW-519.310	Whip chrome spring mount
SAW-519.330	Magnet Mount w/ Cig plug & cord
SAW-519.343	Threaded Safety Whip Base for Standard Threaded Pole
SAW-5L	Safety Whip 5ft / 1.5m Fibreglass, Std mnt, wired, incl X flag
SAW-5NL	Safety Whip 5ft / 1.5m Fibreglass, Std mnt, not wired, incl X flag
SAW-8BDL	Safety Whip 8ft / 2.4m Fibreglass, Breakdown, Std mnt, wired, incl X flag
SAW-8L	Safety Whip 8ft / 2.4m Fibreglass, Std mnt, wired, incl X flag
SAW-8NL	Safety Whip 8ft / 2.4m Fibreglass, Std mnt, not wired, incl X flag
SAW-HM1	Hitch Mount, Quick Mount Threaded
SAW-RCA1	RCA Hot Plug w/ Pig tail suit SAW wired whips
