

Speaker 6145 J Series

LED Jeep Fog Lights

Description

The Model 6145 J Series off-road LED fog light utilizes unique anti-flicker technology to eliminate the flickering commonly associated with pulse width modulation (PWM) signals in 2014 and newer model year Jeeps – no bulky anti-flicker harnesses necessary! The unique styling of our signature solid-optics with proprietary technology makes the Model 6145 J Series an ideal off-road fog light for placement for your Jeep.

Features and Benefits

- Retrofits stock and aftermarket bumpers with stock mounting configurations
