

# Speaker 793 Safety Light

## A whole new kind of "Keep Out" sign

### Description

The Model 793 will revolutionise safety zone indicator lighting. It offers best-in-class light intensity and light quality; it's the industry's only UL Recognised safety zone light; and it comes in three colour configurations to create the best solution for each industry and application.

There are countless examples of where safety-zone lighting is needed and appropriate—they're all too important to trust to an inferior light. With its superior intensity and light quality, the Model 793 can help employees go home to their families in the same condition they arrive to work; in non-industrial situations, public safety can increase. It's a new safety solution that can really make a difference.

### Features and Benefits

- Helps identify dangerous areas to reduce injuries
- Use on vehicles or around stationary objects
- Rugged design allows nearly unlimited uses
- Solid optics for solid performance
- The only UL Recognised safety-zone light

### Applications

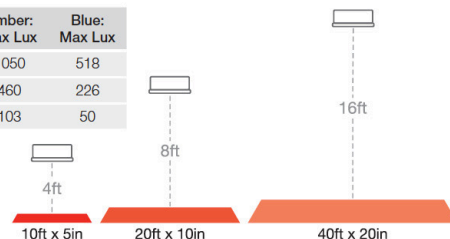

Waste trucks, forklifts, handling equipment and vehicles, utility vehicles

### Tech Specs

Type	LED "Keep Out" safety light
Colour	Red, Amber, or Blue
Lumens @ 4' (1.22m) mounting height	Red (1120 Lu), Amber (1050 Lu), Blue (518 Lu)
Lumens @ 8' (2.44m) mounting height	Red (490 Lu), Amber (460 Lu), Blue (226 Lu)
Lumens @ 16' (4.88m) mounting height	Red (110 Lu), Amber (103 Lu), Blue (50 Lu)
Line length @ 4' (1.22m) mounting height	10' (3.05m)
Line length @ 8' (2.44m) mounting height	20' (6.1m)
Line length @ 16' (4.88m) mounting height	40' (12.2m)
Line thickness @ 4' (1.22m) mounting height	5" (127mm)
Line thickness @ 8' (2.44m) mounting height	10" (254mm)
Line thickness @ 16' (4.88m) mounting height	20" (508mm)
Voltage	12-110V DC
IP Rating	IP67, IP69K
Dimensions (DxWxH)	2.48x5.90x1.89" (62.9x150x48mm)
