

# Vision X A-Pillar Lighting Kit

## For 2008-17 Polaris RZR

### Description

#### LED A-Pillar Lighting System

Improve your night visibility for high speed or tight corners in your Polaris RZR with these bolt-on A-pillar brackets and LED lighting kits. These durable powder coated steel brackets are built for a beating on the trail while 3.7" Optimus LED Lights shine up to 883' of usable light, and tunable through our snap-on beam covers. Need a Euro or Flood beam for cornering? Just add the right cover in seconds! Need more style or a Daytime Running Light (DRL) then Optimus LED Halo is your choice!

The included Optimus LED lights use Iris Reflectors for ultra-distance. These lights use a 6061 Aluminum water proof housing (IP-68 Rated) and Prim Drive heat management technology for more efficient and effective lighting. Finally as a cherry on top, these light have a dimming option so you can personalize them to your needs, day or night.

### Features and Benefits

- Simple plug-n-play harness
- Uses factory switch
- 100% bolt-on brackets
- Low power draw
- Only 0.83A draw each
- 50,000 hr LED lifespan
