

TS1000 LED LIGHT BAR

Speaker Model

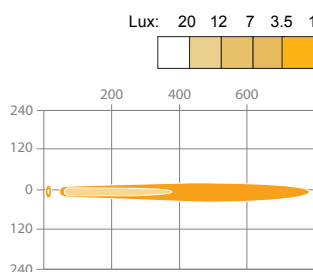

Wide Flood Beam on Low

Wide Flood Beam on High

High Beam

Pencil Beam

Description

The Model TS1000 light bars are contained in weatherproof, thermally conductive plastic housings that are rugged yet lightweight. This makes it ideal for use on smaller vehicles such as UTVs, without impacting vehicle dynamics. The TS1000 features a high-performance LED optics package that delivers bright, white light output for maximum visibility. Designed especially for off-road use and UTVs, the TS1000 off-road LED light bars are available in four beam patterns: Flood, Wide Flood, Pencil Beam and High Beam. Each unit is 14" wide so they can be easily mounted anywhere. Two accessory bracket kits are available: one for a single light, with mounting hardware and one for double stacking two light bars, with mounting hardware. Additionally replacement parts are included for a spare end bracket and a spare C bracket kit.

Features and Benefits

- Weatherproof, thermally conductive plastic housings
- High-performance LED optics package providing bright, white light output for maximum visibility
- Compact and lightweight – Ideal for smaller vehicles
- Additional accessory brackets available for easy mounting both single and double stacking lights
- High Beam – Great for trail riding, creating added visibility near the sides of the trail and out in front of the vehicle
- Pencil Beam – Typically used when mounting driving lights above the hood, offering an extremely narrow beam of light to reduce glare and reflections
- Flood Beam – 35 degree spread of light for greater visibility along the horizon
- Wide Flood Beam – 45 degree spread of light for even more visibility along the horizon

Applications

Off-Road 4x4, Power Sports

Tech Specs

Input Voltage	12-24V DC
Operating Voltage	9-33V DC
Current Draw	2.08A @ 12V DC
Height	40 mm / 1.57 in
Width	350 mm / 13.78 in
Depth	54 mm / 2.13 in
Shape	Rectangular
Outer Lens Material	Polycarbonate
Outer Lens Color	Clear
Housing Material	TC PA6
Housing Color	Black
Mounting Hardware	(x2) M6-1 x Adjustable snap brackets
Connector or Wiring	Bare Leads, 2.5m Jacketed Cable
Product Weight	1.25 (lbs) / 0.57 (kgs)
Shipping Weight	1.67 (lbs) / 0.76 (kgs)
Additional Information	Light bars come with standard C bracket for fixed aiming. Additional Bracket Kits are available for adjustable aiming.

Part No.	Description
TS1000-12/24V-HIGH	12/24V LED 14" Light Bar with High Beam
TS1000-12/24V-PENCIL	12-24V LED 14" Light Bar with Pencil Beam
TS1000-12/24V-FLOOD	12-24V LED 14" Light Bar with Flood Beam
TS1000-12/24V-WIDEFLOOD	12-24V LED 14" Light Bar with Wide Flood Beam

Accessories	Description
TS1000-SB-KIT	Single End Bracket Kit for Model TS1000 Light Bars
TS1000-DB-KIT	Double End Bracket Kit for Model TS1000 Light Bars

Replacements	Description
TS1000-RC-KIT	Replacement C Bracket for Model TS1000 Light Bars
TS1000-RB-KIT	Replacement End Bracket for Model TS1000 Light Bars
