

J.W. Speaker TS3001R

6" Round LED Auxiliary Light

Description

The TS3001R is a 6" round LED off-road auxiliary light designed for rugged off-road use. Featuring a thermally-conductive proprietary technology housing and state-of-the-art LEDs, the TS3001R is resistant to the shock and vibration commonly associated with off-roading. The Model TS3001R comes with an improved mounting design that simplifies installation, making it ideal for a-pillars, front bumpers, and rooftop brackets.

Features and Benefits

- Premium performance high-output LEDs
- Compact and lightweight design
- New mounting simplifies installation and provides greater mounting flexibility
- Increased light output provides premium off-road performance
- Also available with oval shape (TS3001V)

Applications

Agriculture, off-road 4WD, power sports, specialty vehicles, trucks & buses
