

SAFETY VISION PRIMA FACIE

Body Worn Camera

Description

The Prima Facie® Body Worn Camera by Safety Vision is the evidence-capturing device that never fails to provide a first-person point of view. Exhibiting the ability to record video, take high resolution stills, or only record audio, the Prima Facie body worn camera is able to provide the most appropriate evidence collecting solution. With an integrated 2" colour LCD screen and speaker, recorded audio, video, and still pictures can instantly be recalled. A Prima Facie is one of the least expensive pieces of equipment a user can have on their body or in their car, and it provides maximum value. PrimaView is the video evidence management software that is used along side the Prima Facie.

The Prima Facie body camera was designed to help law enforcement personnel maintain a safe and secure chain of evidence. Files from the Prima Facie can only be downloaded to an authorised computer and only be deleted by the appropriate parties with the proper credentials. As well, internal storage prevents evidence tampering.
