

TRUCK-LITE 80255C

LED Dome Light With Motion Sensor

Part No.	Description
TL-80255C	80 Series, LED, 10 Diode, Rectangular Clear, Dome Light, White 8 Screw Bracket Mount, Hardwired, .180 Bullet, 12V

Description

Truck-Lite LED Interior Light

Features and Benefits

- Robust LED Dome Lamp w/Motion Sensor located in center of lamp to power lamp on
- Motion sensor determined by changes in heat and stays on through 5 minutes of inactivity
- Recognizes movement up to 10 feet away from lamp surface
- Nearly flush mount design, with only .1 inch protrusion to allow more room in vehicle body
- Not affected by cold temperatures, providing flicker-free lighting with a faster start-up time
- Ideal for refrigerated vehicles or those operating in cold weather
- LED provide whiter, brighter light rated at 1,000 lumens, providing clearer, improved visibility
- Solid-state LED design is impervious to damage from shock and vibration
- Retrofit or replacement is quick and easy, with a standard 16x4 cut-out necessary for installation
- LED are fully encapsulated in epoxy to prevent damage caused by moisture and corrosives
- Hard-wired design

Applications

Utilities, Fleet and Heavy Equipment

Tech Specs

Product Type	Dome Light
Packaging Type	Standard
Warranty	Lifetime
Series	80 Series
Height	5.75 (inch) / 146.05 (mm)
Width	18.19 (inch) / 462.03 (mm)
Depth	1.08 (inch) / 27.43 (mm)
Plug Side One	Hardwired
Number of Wires	2
Mount/Trim Material	Aluminum
Lens Height	3.7 (inches)
Lens Shape	Rectangular
Lens Material	Polycarbonate
Lens Color	Clear
Sealed/Bulb Replaceable	Sealed
Voltage	12V DC
Number of Diodes/Bulbs	10
Lens Width	15.9 (inch)
Lighting Technology	LED
Plug Side Two	.180 Bullet
Common Size	3"x16"
Mount Type	8 Screw Bracket Mount
Mount/Trim Color	White
Lamp Connection	Hardwired
Wire Gauge	14
Switch	No
Amp	2.0A
Housing Material	Aluminum
