### Description

The JW Speaker 4" x 6" Oval HID (high-intensity discharge) Worklight 24V features three beam patterns to choose from, durable glass lens and an impact-resistant nylon housing. For many years the 9720 set the heavy duty standard with its unique vibration dampening base. Proven in the field, operating in the harshest environments, and on the roughest machines. The rubber shock base is tested up to 50g and withstands the extreme vibration of shovels, dozers and draglines.

### Features and Benefits

- Completely sealed against water, dust and corrosion, IP68 rated;
- Stainless steel hardware;
- Xenon high impact chemical resistant housing;
- Rubber shock absorbing base helps the unit resist extreme shock and vibration.
