

APS Safety Whip LED Light Head

AL2 Series

Description

Combined with the APS heavy duty mesh reflective X flags the LED light head mounted on a 5 – 12 ft safety whip provides high night and day visibility for smaller support vehicles. The LED Light Head base are designed to suit a BA15s / 1156 lamp socket.

The AL2 is a newer Compact Multi-Volt Super Bright Series that are 4x brighter than the standard 8 LED light heads. They are also available in either steady on (AL2C) or flashing (AL2F) modes.
