

ECCO EW3420 Series

50" Combination Utility Bar

Description

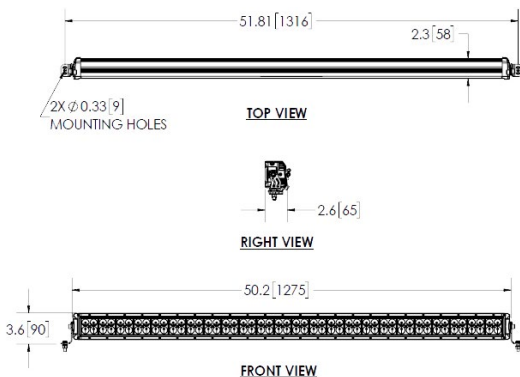

ECCO's combination utility bar utilises exclusive optics to combine a high-intensity Safety Director™ with the powerful illumination output of a work light. Steady burn amber mode is ideal for inclement weather and high-dust environments. Brackets included for front- or rear-vehicle mounting. Features include a weather-protected controller connection 12-24 VDC operation, 5-watt LEDs, aluminium housing, polycarbonate lens, and 3 year warranty.

Features and Benefits

- Custom optics designed for dual-light operation
- Steady burn amber mode
- Flood light with Safety Director™
- Dual-mounting options
- IP67 Rated
- SAE Class 1, CA T13
