

Vision X DURA Mini M4M

A Powerful Small Driving/Fog Light

Description

The Duralux Mini M4M is a powerful answer to a small driving/fog light. The sleek and compact 2.75" housing coupled with four 5 Watt LEDs pushes 2,115 lumens of light, making it one of the brightest lights in its class. Featuring a combination beam with 10° and 25° optics, the Duralux Mini M4M provides powerful center lighting, with a smooth flood illumination. This efficient light only draws 1.67A, making it an ideal option for ATV/UTV applications where low power consumption is important.

Features and Benefits

- Ultimate Compact Fixture for Universal Applications
- 60° Beam Flood Pattern
- Very Low Amp Draw

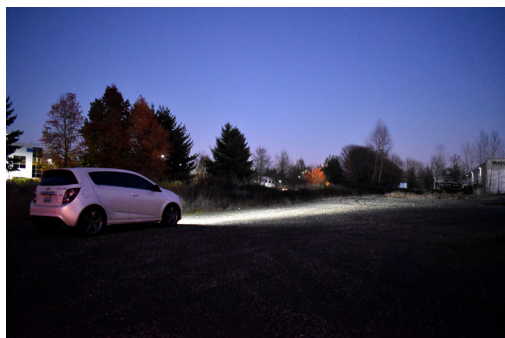

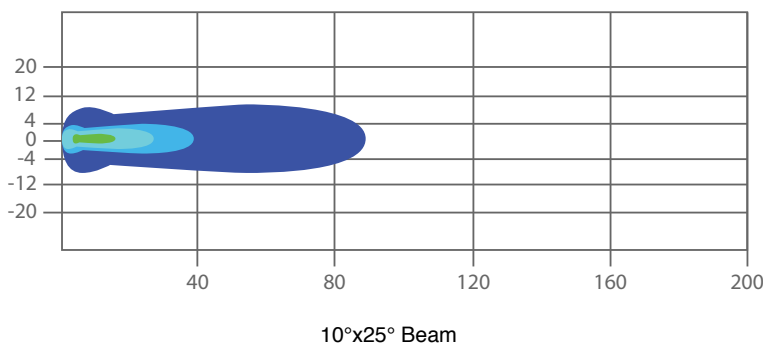

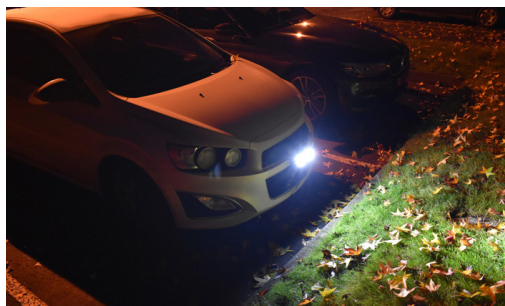

Applications

Industrial, commercial, fluorescent replacement
