

# Duralux LED Worklight

## Duralux 400 Series

### Description

The compact DURA400 has an industrial grade, die-cast aluminum housing. The DURA400 possesses an ingress rating of IP69K making it resistant to dust and submersible to up to 10' of water. With a simple one bolt mounting system and two wire installation the DURA400 is easy to install with plenty of strength boasting a resilient 8.6Grms vibration rating.

The DURA400 series comes in a wide 40° or flood 60° beam patterns. This 4" square work light features four 5-Watt LEDs, a black powder coat finish (other colors are available upon special request), and an industrial standard waterproof Deutsch connector. The DURA400 has a much longer lifespan than any halogen work light, 50,000hrs compared to 250hrs, which reduces fleet repairs and costs.

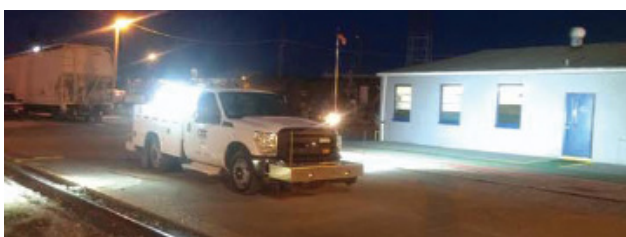

### Features and Benefits

- Available in 40° and 60° Beam Pattern
- More Light than A 100W Halogen
- 1.6 Amp Draw (12V) Saves Power
- 50,000 Hour LED Lifespan
