

Dragonwear Elements Lightning Jacket

Lighting up the Night

Description

Light up the night in our new Elements™ Lightning Jacket, made from DragonWear's proprietary, inherent tri-blend FR fabric in hi-vis orange and smartly matched with our durable IronShield™ FR fabric to repel wind, rain, and sleet. The innovative reflective stripes are a stretch reflective that moves with you as you work, delivering high visibility in the darkest of nights without compromising greater range of movement and comfort. IronShield™ fabric technology is strategically placed in high-wear areas for increased durability, while a drop-tail rear hem and extra-long sleeves provide additional coverage when reaching.

Their best-selling built in balaclava design has been added to provide on-demand facial protection and warmth, while closefitting hood construction allows a hard hat to fit comfortably over the hood without restricting peripheral vision. Multiple pocket options like hand warmer and cell phone pockets provide a range of storage that let you keep go-to items close. Durable wash and wear performance ensure that the garment's superior breath ability, moisture wicking properties, and protective insulation won't vanish with on-the-job use. Ride the lightning straight into the storm knowing you'll stay warm, safe and visible.

Features and Benefits

- Inherently fire and arc-resistant
- Proprietary fabric technology stands up against wind, rain, and sleet
- IronShield™ fabric in Navy placed in high-wear areas for increased durability and stain coverage
