

True North Wildland Pant

Protective Fire-Resistant (FR) Clothing

Description

Protective fire-resistant (FR) clothing for firefighters, welders / boilermakers, and personnel that require high thermal protection. The True North Wildland Pant is an NFPA 1977-compliant pant constructed from inherently flame-resistant fabrics and is designed for use by wildland firefighters and any personnel that need to be safeguarded from thermal or fire exposure.

This new-for-2020 pant has been designed to provide a true performance fit for a full range of motion and more durable exterior. The Tru-Fit™ micro adjustable waistband ensures the perfect fit, while extra-large gusseted cargo pockets with hook-and-loop closures and slash-styled front pocket provide increased functionality.

Available in Plus or Pro

The pant comes in two versions – Plus and Pro, The “Plus” version is constructed with 6.0 oz Tecasafe® FR fabric and the “Pro” is made with 7.0 oz Nomex® FR fabric.

Features and Benefits

- New for 2020 – Re-engineered performance fit for a full range of motion
- Inherent flame resistance
