

# J.W. Speaker Model 526

## Dual White Anti-Glare LED Work Light

### Description

J.W. Speaker has now taken their anti-glare technology to the next level with the new dual-white anti-glare beam pattern for the Model 526 6 x 6" heavy-duty LED work light. This dual white version features a wiring toggle configuration that allows the setup of the light colour temperature for 2800K warm white or 5000K cool white. Using warmer lights can be less harsh on the eyes for operators, reduce glare in dusty and foggy and also reduce the overall light pollution in the mine site.

### Features

- Die-cast aluminum housing that is sealed to IP69K
- Dual White Anti-Glare beam pattern
- 24 Volt Versions are available for Theft Deterrence

### Application

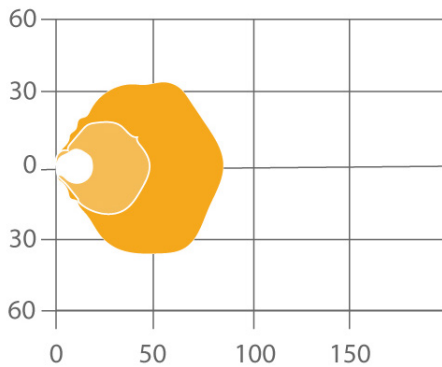

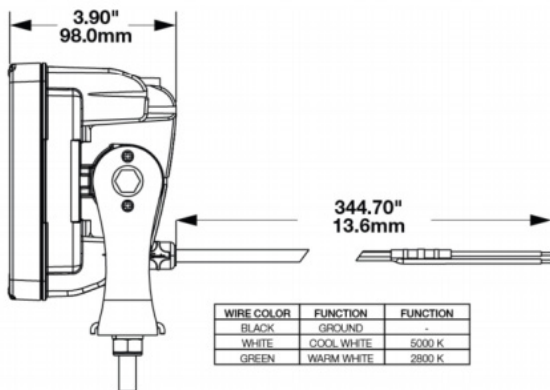

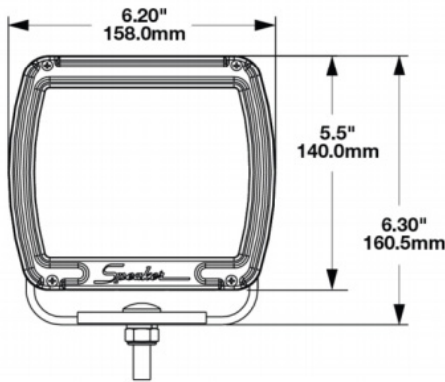

Construction, agriculture, Industrial, material handling, forklifts, warehouses, mining, railroad, specialty vehicles, trucks and buses
