

ORALITE VC612HT

High Tack Fluorescent Green Tape

Description

Keeping worksites safe and accident-free requires solutions that make it easier for operators to spot vehicles and machinery. Reflective tape is one of the easiest solutions for increasing visibility. Orafol is one of the worlds leading manufactures of reflective materials, which are used for all types of applications where safety and visibility are of vital importance.

Orafol's product line of reflective tape offers a large portfolio of colors and reflective material. They are easy to install and flexible which makes them perfect even in curved applications. They are easy to cut and do not require edge sealing. They can withstand impacts and high-pressure washing without loosing their reflectivity.

Largely used on the on-road transport market, the Oralite reflective type is also a perfect solution for mining applications. It can be applied to all types of heavy machinery, drill rigs, dozers, haul trucks, and loaders. It can also be used for making identification decals for maintenance purposes.

Keep your workplace safe by increasing the visibility of your machinery and vehicle with Oralite.

Features and Benefits

- High tack and very high brightness
- Prismatic reflective performance
- Unique handling and applicator user friendly
- Ability to conform to demands of vehicle shapes
- Flexible; great for application onto curved vehicles
- Easy to cut and no edge sealing required
- Withstands power washing
