

GOLIGHT INC.

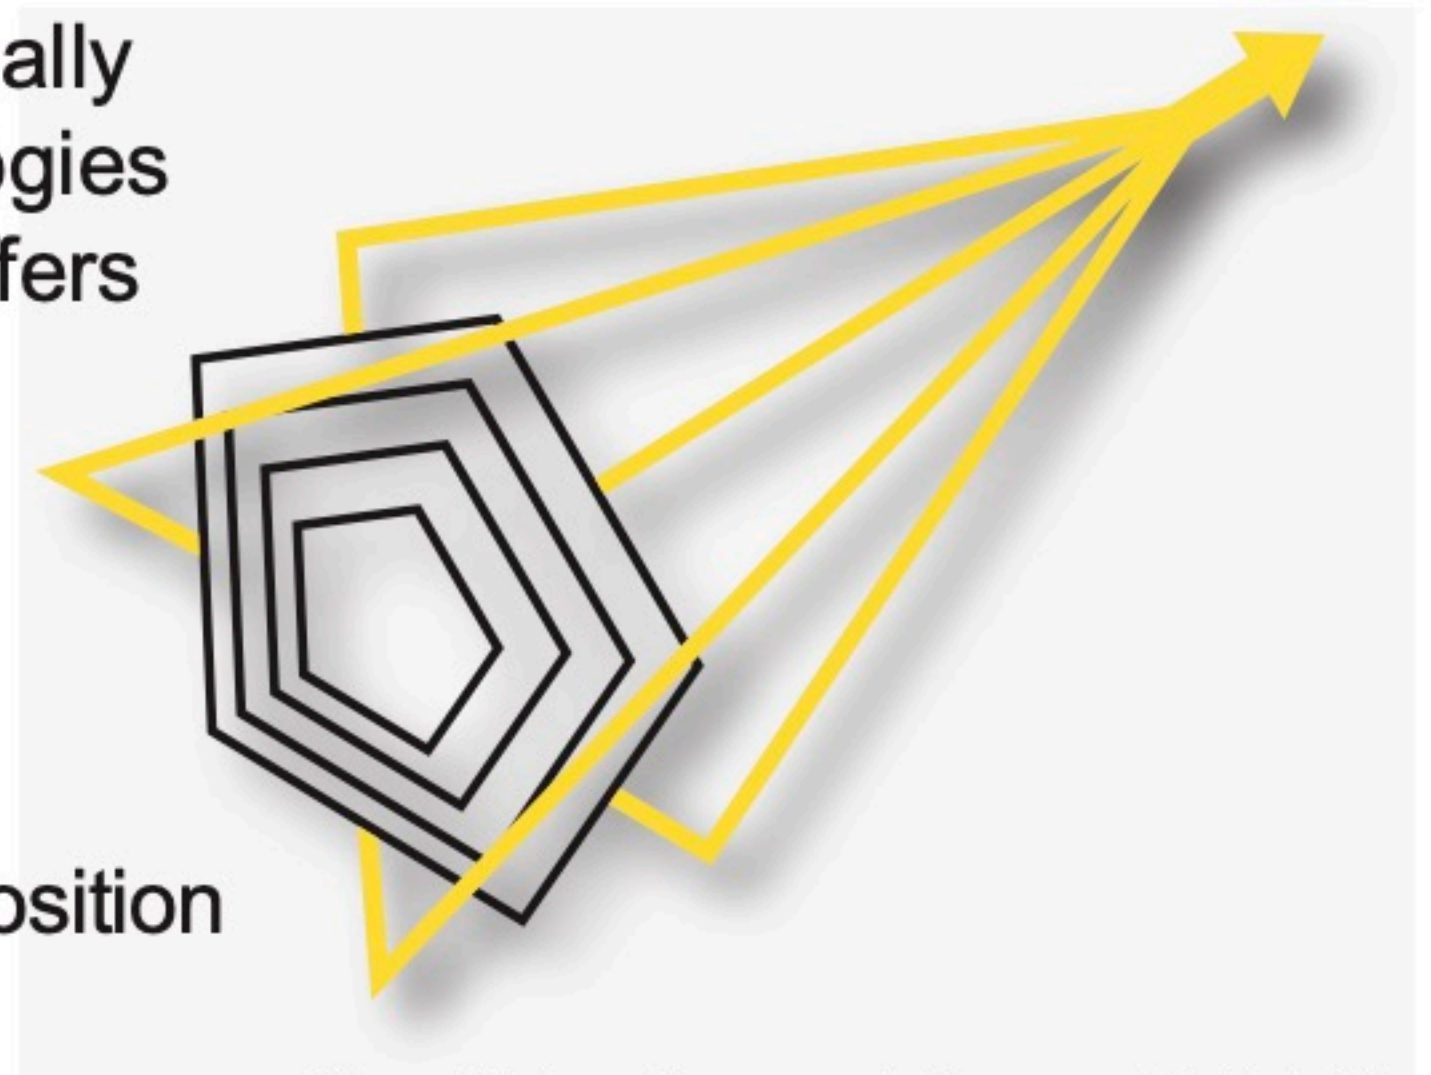

Product Catalog 2020

PERFORMANCE AND INNOVATION

Powerful light sources, precision engineered reflectors and high performance optics are the most important characteristics of directional lighting. At Golight®, Inc. we are committed to continually developing and testing new illumination and night vision technologies that produce more powerful and useful light sources. Golight® offers designs for useability in countless applications:

- Powerful Spotlights for intense illumination
- Flood Lens technology for work area illumination
- Infrared Lens for covert night vision enhancement
- Clear Top-Housing for useful light in the completely vertical position
- Pedestal mounts for better lighting angles on fishing boats

Combining the revolutionary Golight® five-sided parabolic reflector with a Philips axial filament bulb, Cr5 PentaBeam™ Technology captures and directs more useable light than other designs

GOLIGHT® DESIGN

Golight's patented product designs utilize a combination of halogen and LED's, optical lens and reflector technology to generate extremely bright lights. The designs eliminate dark spots, maximize effective beam distance and provide the user an effective spectral pattern. Golight designs bring more lighting power to your fingertips, anywhere you go.

SPOTLIGHT PERFORMANCE STANDARDS:

For the first time ever in the spotlight industry there is an official standard of measurement in effect for accurate comparisons of spotlight performance.

New standards for spotlight performance measurement are now in place and accredited by the American National Standards Institute (ANSI). New Peak Beam Intensity (candela), Maximum Beam Distance, and Battery Run Time (when applicable) measurements are now presented next to all Golight® models.

Intensity

Beam Distance

PERSONALIZED CUSTOMER SERVICE

– GUARANTEED

Our personalized customer service means that you can contact us any time. Private consumers and corporate industry buyers alike will speak directly to one of our representatives. We do everything it takes to build an exceptional product, then we stand behind it with exceptional product warranties. That's something you can trust....Guaranteed.

POPULAR APPLICATIONS

Over the years, Golight has had the distinct honor to help people from all walks of life get things accomplished in the dark. Our lights have ridden shotgun on covert ops in the Middle East, guided open-water vessels back to harbor, helped carve roads out of rugged terrain and aided in search and rescue efforts among countless other things. Imagine what you can do with Golight lighting your way!

Golight® GT Series - Halogen

GOLIGHT GT SERIES Remote Control Spotlights

- Wireless or Hardwired Remote Control Options
- Permanent or Portable Mounting Options
 - 14 Gauge Stainless Steel Mounting Bracket (Perm)
 - Industrial Strength Magnetic Grip (Portable)
- 370° Rotation x 135° Tilt
- 225,000 Candela, Max Beam Distance 3,113 ft
- Ingress Protection from Dust (IP56)
- 5.5 amps at 13.8V
- High Torque Drive Train with Precise Pan/Tilt Control
- 65 watt H9 Bulb / 8° Beam Angle
- UV Ray and Saltwater Resistant
- 3 Year Limited Warranty

Permanent Mount Models

GOLIGHT GT Halogen
2000GT (White) 2051GT (Black)

Package Includes:
Wireless Handheld Remote
Mounting Hardware and Rockguard

GOLIGHT GT Halogen

... I had 2 go lights on my vehicle in Iraq 2007-2008... We were on a convoy security mission at night and I spotted a pressure plate about a 100meters out with your light!! My driver couldn't see it but I grabbed the wheel and we just missed it!!!...After EOD was done turns out that plate had over 5lbs of explosives that would have killed us all!! Thanks Kirby Frank US ARMY RETIRED!!

A bad storm came through and my crew got called out in the middle of the night for down lines. It was a great chance to put our Golight to work. Having light where and when you need it, really helped us get things back up and my guys home safe. Thanks Golight for a great product.
-Gary Klumpe, Journeyman Lineman

Stryker® ST Series - Halogen

ST SERIES FEATURES

Remote Control Spotlights

- Wireless or Hardwired Remote Control Options
- Permanent or Portable Mounting Options
- 370° Rotation x 135° Tilt

If it wasn't for these Golights we have mounted on our boats, we could not fish or hunt the way we do on the rivers. All jokes aside, these lights are life savers when we are running our boats at night. Thank you for making one truly river worthy light!!!

Beam Angle: 8°

The Golights mounted on my Jeep work great for off roading at night. Being able to move the lights remotely allows you to see what's coming on and off the trail and around the bend instead of just what's directly in front of you. I Highly recommended!

Stryker® Hardwired

Beam Angle: 14°

I am an avid night fisherman and absolutely LOVE my Gobee Stanchion Golight. The convenience...The safety...traveling a lake at night can be very dangerous trying to drive while holding a handheld spotlight... I would highly recommend this remote spotlight to anyone who night fishes, it's the best investment you'll ever make!
-Scott Mize
